1 Introduction

Hello, this is the first attempt at creating a **tex** file using Microsoft VSCode

- This is really cool!

- ok

- I feel like I've learned so much this past day

This was added on my secondary laptop

1. so cool!

2. second item ..

This is some text! This is a new line in my editor! Some more text that I am hoping will wrap around to display the odd behavior of latex. This is so cool nonetheless!

You have to make two returns!

2 Numbering

3 Formatting

This is normal text. **This is bold text!** *This is italic.*
  This is emphatic.
  <u>Here is some underlined text.</u>

3.1 subsection

"This is in quotation marks."
  "This is in proper quotation marks."
  'This is in proper quotation marks.'
